Policies regarding procedures to report crimes committed on campus criminal actions or other emergencies and institution's response to such.

Clarks Summit University provides a Resident Director for each on-campus dormitory. Resident Directors collect information regarding criminal conduct or emergencies and present this information to the Office for Student Development for necessary action. Additionally, the University Director of Safety & Security located in this office is available for the appropriate handling of criminal conduct and emergency related information.

Policies concerning the security of and access to campus facilities.

Access to the campus facilities is open during the day and locked during the night. The normal business hours of the campus are 8 AM to 5 PM. During this time, the Director of Safety & Security is available for any campus security needs. From 5 PM to 8 AM, there are Campus Security officers making rounds on the campus, securing all facilities and they are also available for any security needs that may arise.

Policies concerning campus law enforcement

The enforcement authority of security personnel is guided by the policies established by the Office for Student Development through the Director of Safety and Security. Campus Security reports all crimes, accidents, traffic violations, and emergencies for immediate action by institutional, local, state, and federal authorities. Campus Security has a long-established working relationship with local agencies.

Accurate and prompt reporting of all crimes to Campus Security is encouraged through the use of a comprehensive logbook and accident, theft and incident reports. Appropriate police agencies are involved through the Director of Security. During an emergency, Campus Security may contact local authorities immediately for assistance and direction.

The students have monthly dorm residence meetings in each dorm and the dorm staff meets on a bi-monthly basis with the Office for Student Development leadership personnel. Security procedures and practices are discussed during these meetings. Fire drills and safety programs are practiced on a regular basis. Clarks Summit University provides campus facilities, which comply with appropriate fire codes. Appropriate exterior walkways are illuminated by a maintained system of outside lighting. Emergency lighting is also provided on building interiors including campus residences.

The university does not currently have off-campus student organizations recognized by the institution, so no monitoring of off campus criminal activity is necessary.

Clarks Summit University prohibits the possession, use, and sale of alcoholic beverages by students and employees, and will request enforcement of underage drinking laws established by the State of Pennsylvania through the immediate notification of appropriate local and state authorities. Clarks Summit University additionally prohibits the possession, use, and sale of illegal drugs by students and employees, and will request enforcement of federal and state drug laws through the immediate notification of appropriate federal and state authorities. A description of drug and alcohol abuse educational programs is available through the University's published "Drug Abuse Awareness and Prevention Program." A copy of this prevention program is attached to this report. Information regarding drug and alcohol abuse awareness and prevention programs are made available in compliance with Section 1213 of the Higher Education Act of 1965, as amended, within the drug free campus requirements added by Section 22 of the Drug Free Schools and Communities Amendments of 1989 (Public Law 101-226).

The only prevention program we have in place is having our students in early every night and having tight security of keeping non-students off campus after hours at night. Our student to adult ratio is about 25 to 1 so help is very close if an assault would occur. The reporting of such an offense would be the same as any other offense. The first contact would be the student's resident director. The director would contact the Dean of Students and from there our Campus Security and Local Police would be contacted. We do not have any off-campus facilities so a policy in that area is not necessary. There are counselors on staff and available for a victim of such an offense. Students who are in violation of such an offense will be subject to discipline by the Student Affairs Board, with disciplines up to and including possible dismissal. These students are entitled to have others present during the disciplinary proceeding and will also be informed of the final determination of any school disciplinary action taken.

The institution reports the above statistical information to State Police authorities and to the United States Department of Education for the Secretary's report to Congress on campus crime statistics.

Clarks Summit University
Drug Abuse Awareness and Prevention Program
The Drug-Free Workplace Act of 1988 Public Law 100-690

Under the General Provisions of the Reauthorization of Higher Education Act, Clarks Summit University has established the following policy. Drug Prevention Program Certification was obtained in September of 1990.

Clarks Summit University is an educational institution that desires to be Biblical in its teaching and desires to train servants for Christian Ministries. Because of the problems in our society of drug and alcohol abuse, we want our college and graduate students, faculty, administration and staff to be aware of the following:

Clarks Summit University Standards of Conduct

The university has as its stated purpose the training of men and women for all phases of the Christian ministry. The standard of conduct for Christians contemplating such leadership is considerably higher than the standards of the world. Certain Biblical truths are basic to the standards set forth in this document:

1. God expects believers to be yielded to Him rather than conformed to the world (Romans 12:1-2). We believe this principle has application to our thinking, appearance, actions, plans for life service and partnership, and many other areas of life;
2. God expects those who are His to plan their everyday lives as to make no provision which would stimulate them to want to sin, or which would allow the fleshly nature to grow (Romans 13:14);
3. God expects His own to yield to Him, to be alive to His every wish (Romans 6:1), to be eager to walk as He walked (1 John 2:6) and to recognize the leadership of those whom He has given to them (Hebrews 13:17).

On the basis of these expectations from the Lord, certain standards of conduct are believed to be an important part of the effort to establish an atmosphere within which the purpose of Clarks Summit University may be realized. Therefore, the university asks the faculty and staff (and their families) and the student body to refrain from the possession or use of alcoholic beverages, tobacco, and non-medical drugs whether on campus, as a part of any Clarks Summit University activity, or privately in their own personal lives. (Student Handbook, pp. 7-8. See also Campus Security Policy)

Institutional Sanctions

Students who are in violation of these standards will be subject to discipline by the Student Affairs Board, with disciplines up to and including possible dismissal. An employee who is in violation will be dismissed from his/her position.

Legal Sanctions

Drunken driving and drug abuse is against the law. Offenders (experimenter's as well as regular user) risk heavy fines and/or imprisonment. (See penalties below.)

Health Risks

The health risks of drug and alcohol use have been well documented. Continued use of drugs and/or alcohol can lead to dependence. Long-term drug and/or alcohol abuse can destroy a healthy body and mind. It can lead to organic brain damage, mental illness, or malnutrition. Failure to get attention for this behavior may lead to diseases or injuries, or even death. Risk of AIDS, hepatitis and other diseases increase if drugs are injected.

Help Available

An experienced team of counselors is available for people who are currently in need of help or who may still be overcoming struggles from the past. The Office for Student Development counseling staff include the following:

- Mr. Roddy Hannah, M.S. Counseling, Vice President of Student Development
- Mr. Ted Boykin, M.Div., B.A., M.S. Counseling, Associate Dean
- Mrs. Faye Moore, M.S., Counseling, Associate Dean
